

Northwind Desk — Pricing and Plans

Plan tiers

Northwind Desk offers three plans. Starter: 9 USD per user per month, includes ticketing, a shared inbox, and email support. Pro: 29 USD per user per month, adds automations, reporting, and integrations. Enterprise: 79 USD per user per month, adds SSO, audit logs, a dedicated success manager, and phone support.

Integrations by plan

Integrations (including Slack, Microsoft Teams, Zapier, and the REST API) are available on the Pro and Enterprise plans only. The Starter plan does not include any integrations. Customers on Starter who ask about Slack or API access should be offered an upgrade to Pro.

Billing cycles

Plans are billed monthly or annually. Annual billing includes a discount of two months. Invoices are issued to the billing email on file and are payable by card or, for Enterprise, by bank transfer.

Refund policy

Annual plans are refundable in full within 30 days of purchase. After 30 days, annual plans are not refundable but remain active until the end of the term. Monthly plans are not refundable under any circumstances; cancelling a monthly plan stops future renewals. Duplicate or erroneous charges are always refunded in full once verified. Refunds above 50 USD require supervisor approval.

Plan changes

Upgrades take effect immediately and are prorated. Downgrades take effect at the next renewal date. Moving from annual to monthly billing takes effect at the end of the current annual term.
